

Item	Price	Coin Value Number of Coins Needed					
		Cents	Nickels	Dimes	Quarters	Half Dollars	Dollars

Directions:

1. List 5 items that you would like to buy and place each in an “Item” box.
2. Find the exact cost for each item and place the cost in the “Price” box.
3. Write the amount of coins you will need under each “Coin Value” box to total the price of each item. There are many different ways to arrive at the same total.

Example:

Item	Price	Cents	Nickels	Dimes	Quarters	Half Dollars	Dollars
Pizza	\$8.56	1	10	10	8	2	4
